

## PROF. ING. CARLO CELLAMARE, PHD: CURRICULUM VITAE

### Current position

Full Professor of Regional and Town Planning in the School of Engineering, DICEA – Dpt. of Civil, Building and Environmental Engineering, University of Rome “La Sapienza”

Director of the scientific journal in Urban Studies “Tracce Urbane / Urban Traces”, University of Rome “La Sapienza”

Director of the Laboratory of Urban Studies “Dwelling Territories”, DICEA – Dpt. of Civil, Building and Environmental Engineering, University of Rome “La Sapienza”

Member of the scientific committee and Representative of the “Urban Studies” section of the PhD Program “Architecture and Town Planning Engineering”, Sapienza University of Rome

### Academic positions

2021	Full Professor of Regional and Town Planning in the School of Engineering, University of Rome “La Sapienza”
2005 to 2020	Associate Professor of Regional and Town Planning in the School of Engineering, University of Rome “La Sapienza”
2002-2004	Lecturer of Urban Planning in the School of Engineering, University of Rome “La Sapienza”
1998-2002	Researcher (post-doctorate scholarship), Department of Architecture and Town Planning, University of Rome “La Sapienza”

### RESEARCH

#### Research interests and National and international research projects (selected)

Since 1997, he is member of the scientific coordination of several national and international, MIUR (PRIN - National Interest Research Programme), CNR researches and Researches contracts.

In recent years, his scientific activities have been focusing on:

1) The study, also with an interdisciplinary approach, of the relationships between urban practices and planning, the relationship between the overall processes of formation and evolution of the city and the everyday life, urban policies in areas of settlement expansion, the relationship between re-appropriation processes and sense of places. More recently, it has focused on the relationship between major processes (socio-economic, financial, structural, etc.) of the transformation of the city, urban policies and conditions of living, and on urban regeneration of the peripheries (especially in Rome and in social housing neighborhoods) even through action-research programs.

Related research programmes (selection):

PRIN:

- PRIN 2010-2011 (since 2013 up to 2016) *Post-metropolitan territories as emergent forms of urban space: coping with sustainability, habitability, and governance*, unit coordinator
- PRIN 2008-2010 *The local territorial project: methods, techniques and experiences*, member of the local research group

Sapienza University Research Programs:

- *Spatial and policy implications of the socio-economic structure and dynamics of Rome. An innovative integrated approach* (University Main Program, 2019, ongoing), scientific coordinator
- *Understanding and rethinking Rome's development model. Proofing interdisciplinary methodologies at city-territory scale* (University Main Program, 2017), co-scientific coordinator
- *Empowering peripheries. Testing transdisciplinary and inclusive methodologies* (University Main Program, 2015), scientific coordinator
- *Roman peripheries and new narrative and planning forms* (University Program, 2010), scientific coordinator
- *New urban peripheries: evaluation of settlement's expansion of Rome* (University Program, 2008), scientific coordinator

Partner of the project *Self Made Urbanism. Peripheries of a Cosmopolitan City*, supported by NGBK (Neue Gesellschaft für Bildende Kunst), Berlin in collaboration with metroZones, Center for Urban Affairs, Berlin and urbanXchange, Rome (2012-2013)

2) The study and the experimentation, even through action-research experiences, of participative planning processes. His research has been focusing on the re-consideration of urban design and planning not only as institutional processes, rather as complex social processes and as expression of a collective construction of

meaning. These researches have been focusing on themes such as the ‘project’ as a collective learning process, the sense and the role of urban actions, new policies and processes of interactive-design and ‘collaborative projects’.

Related research programmes (selection):

- CNRS – LOUEST *PICRI-IDF Research Programme “Democratie participative en Europe: vers une democratie technique?”* (2006-2008), scientific coordinators Professor. Y. Sintomer and prof. M.-H. Bacque – Coordinator of the Rome research group.
- Scientific coordinator of research projects funded by the Department of Architecture and Town Planning (DAU) of the University of Rome ‘La Sapienza’ and the 1<sup>st</sup> Municipality of Rome: *Participatory Action Plan- Methodological and operational criteria* (2005-2006), *City House- Methodological and operational criteria* (2006-2007)

He has promoted (since 2010) and developed together with other professors, researchers and scholars of other disciplines (anthropology, sociology, geography, etc.) and other universities (Ferrara, IUAV Venice, Padua, Polytechnic of Milan, etc.) the interdisciplinary research network *Tracce Urbane*, which among other things annually holds a national conference on the most advanced research topics in urban studies.

Partner and WT Scientific Responsible of the COST Action *PHOENIX. Protection, Resilience, Rehabilitation of damaged environment* (CA19123, ongoing).

Member of several international networks and research agreements.

### **International and National Conference Organisation (selected)**

2017, International Conference *Cities and Self-organization*, AESOP TG “PS-UC”, *Tracce Urbane* research network, Sapienza University of Rome, Rome, scientific coordinator

2017, National Seminar Series *Borgate*, Municipality of Rome, Sapienza University of Rome, scientific coordinator

2017, National Conference *Rome in Transition*, organized by GSSI Social sciences, L’Aquila (Italy), member of the scientific committee

2014, International Conference “*Becoming Local*”. *Transforming spaces, redefining localities*, organized by Laboratoire Architecture Anthropologie (LAA) & Association of European Schools of Planning (AESOP) Thematic Group “Public Spaces and Urban Cultures”, La Villette School of Architecture, Paris, member of the scientific committee

### **Academic and Scientific Societies Memberships (selected)**

**AESOP:** Member of the Thematic Group “Public Space and Urban Cultures”, since 2016

**Società dei territorialisti/e:** Founding member

**SIU:** Member of SIU (Italian Scientific Society of Town Planning) since 2004

### **Direction and Memberships to Scientific and Editorial Boards**

Director of the Scientific Journal in Urban Studies “*Tracce Urbane / Urban Traces*”

Membership to Scientific and Editorial Boards of International Journals

- ASUR – Archivio di Studi Urbani e Regionali
- Plurimondi
- Rivista della Società dei Territorialisti/e

Membership to Scientific Boards of the book series (selected) *Territori* (manifestolibri), *Ricerche* of the Società dei Territorialisti (Firenze University Press), *Il futuro della città* (Guerini), *Territori* (Ed.it press).

Blind Referee for the Journals (mainly class A): *Territorio*; ASUR – Archivio di Studi Urbani e Regionali; *Rassegna di Architettura e Urbanistica*; *City, Territory and Architecture*; *CRIOS – Critica degli Ordinamenti Spaziali*; *Etnografia e Ricerca Qualitativa*; *Semestrale di Studi e Ricerche di Geografia*; *Home Cultures*; *International Planning Studies*; *Urban Research and Practice*; etc.

Blind Referee of several books and national and international research programs.

## **TEACHING**

### **Current Teaching**

Master-level module *Sustainable Development and Planning* in the Course of Environmental and Territorial Engineering, Master Graduate Program, University “La Sapienza” of Rome

Master-level module *Territorial Planning* in the Course of Environmental and Territorial Engineering, Master Graduate Program, University “La Sapienza” of Rome

Module ‘Research Methodology’ and several seminars in the PhD Programme “Architecture and Planning Engineering” (“Urban Studies” section), University of Rome “La Sapienza”

### **Previous Teaching**

- Teaching (selected):  
2009 to 2021 *Urban and Environmental Planning*, Course in Environmental and Territorial Engineering, Master Graduate Degree Program, University “La Sapienza” of Rome  
2001 to 2020 *Territorial Engineering*, Course in Environmental and Territorial Engineering and Course in Building and Environmental Engineering, Graduate Programs, University “La Sapienza” of Rome  
2009-2010 *Environmental Planning* (integrated module), Course in Environmental and Territorial Engineering, Master-level Program, University “La Sapienza” of Rome  
2008-2009 *Territorial Planning and Territorial Representation*, Course in Environmental and Territorial Engineering, Graduate Program, University “La Sapienza” of Rome  
2004-2005 *Urban Environmental Assessment* in the Course of Environmental and Territorial Engineering, Master-level Program, University “La Sapienza” of Rome  
2000-2001 *Analysis of urban and territorial systems*, Course in Environment and Territorial Engineering, Graduate Program, University “La Sapienza” of Rome
- Supervisor and co-tutor of doctoral researches at the PhD Program in ‘City Planning Techniques’, Sapienza University of Rome, and other Doctoral Programs.
- Supervisor of several postdoctoral researches
- Professor and member of the scientific committee of several master’s degree programs (University of Rome “La Sapienza”, University of Rome ‘Roma Tre’, University of Venice IUAV)
- Organization and participation in seminars and lectures at graduate and master level Course in different Italian and European Universities

### **THIRD MISSION AND PUBLIC ENGAGEMENT**

Responsible for research-action processes, Living Labs, urban regeneration and local development projects in the suburbs of Rome (Tor Bella Monaca, Quarticciolo, Centocelle, etc.), financed by foundations and national and local public bodies.

He has been scientific coordinator of the *Casa della Città* - Urban Centre programme in the 1st Municipality of Rome (Historic Centre).

### **University service (selected)**

Director of the Laboratory of Urban Studies “Dwelling Territories”, DICEA – Dpt. of Civil, Building and Environmental Engineering, University of Rome “La Sapienza”, 2016 to date.

Representative of the “Urban Studies” section of the PhD Program “Architecture and Town Planning Engineering”, Sapienza University of Rome, 2015 to date

Director of the Interdepartmental Research Centre CRITEVAT (Engineering Research Centre on Territorial and Environmental Conservation and Enhancement), University of Rome “La Sapienza”, 2015-2019.

Member of the Faculty Evaluation Team, School of Engineering, Sapienza University of Rome, 2011-2013

Member of the Academic Committee of the Science and Technology School (AST), Sapienza University of Rome, 2009-2010

### **Publications**

More than 190 publications. Among them 10 monographies and more than 50 journal articles (15 articles in level A or international scientific journals) and 90 essays in books.
